

The background of the slide is a light gray gradient. It is decorated with numerous realistic water droplets and bubbles of various sizes. Some are large and prominent, while others are small and scattered. The droplets have highlights and shadows, giving them a three-dimensional appearance. They are distributed across the top, bottom, and right sides of the frame, leaving the central area relatively clear for the text.

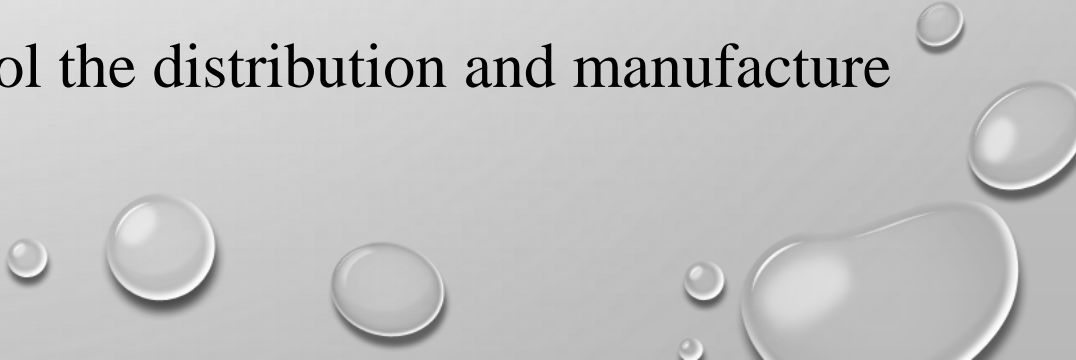

# ENTERTAINER DATA ANALYSIS

BY : SOUMYA SANDESH MANOCHARYA

# **Objective:**

Normal life can be stressful, and people need to relax. Being entertained by others is a wonderful way to take some time out of life. It can reduce stress and make life's issues easier to face. The media and entertainment industry consists of films, television, radio and print. These segments include movies, TV shows, radio shows, news, music, newspapers, magazines and books. Entertainment industry is a group of sub-industries devoted to entertainment. Entertainment industry is used to describe the mass media companies that control the distribution and manufacture of mass media entertainment.

## **Benefits:**

User can easily analyze about their favorite entertainer through the dashboard in terms of hoe many awards he/she won.

# Tasks:

- Write the process and data added to the current dataset.
  - Add some data as per convenience.
  - Do the data preparation part.
  - Build the dashboards.
  - Build a storyline
- 

# **Data Preparation And Description:**

- Data was given in three parts:

Entertainer – basic info

Entertainer – breakthrough info

Entertainer – last work info

- Given data is not much sufficient for analysis, so additional information is required.
- Number of awards, nominees, awards from breakthrough etc., are added to the data set.

## Column Name

## Description
